CrossVerify Roadmap

Dear Marcus,

Welcome to the new look weekly update. We have tried to make this look and feel easier to read and digest.

Above you will see the latest roadmap. Please bear in mind that this is dynamic and when we enter the R3 Project and the FCA Sandbox, we will find the priority of items changes.

This is where we are right now:

- **App 1.0**
 - This is scheduled to be killed off in early August. MVP 2.0 will take over as the demo system at this point.
- **MVP 2.0**
 - 'Minimum viable product' version for implementation in the FCA sandbox, scheduled for release at the end of August. This covers all the required functionality present in App 1.0 and will include Corda integration.
- **2.1 Sharing**
 - Users will have the ability to permission and share their profiles with other companies.
- **2.2 Remote Security Module**
 - Functionality for a security user to identify a CV user from their biometrics (face or voice).
- **2.3 3rd Party Authentication**
 - Third parties can get an authentication token from a trusted party to verify customers.
- **2.4 Workflows**
 - Adding the ability to create custom workflows, adding new company entity roles, and editable roles and permissions.

Sales channels and leads are tracked [here](#).

When they become opportunities they are managed in Salesforce.

Product Management

Sonin, an agency have been appointed for the web development work. This can start once Bill has completed the wireframes for the admin portal.

CrossVerify Platform - work continues on the database schema. Production will use Oracle and the team is currently testing H2 in an in memory database on the QA environment.

Partners

R3 - we have been told that we will be on the 25 July showcase call. NQ is waiting for details.

Aware - we have provisional pricing from Aware for the Knomi mobile and server, but the numbers provided do not go high enough. Aware have said they will revert with more tiers and also pricing on the document verification solution they resell.

Finance

A call is to be set up with JL, SC, RN and NQ to discuss the budget.

VAT reclaim is ready to go in when the bank account is ready.

Invoices can be submitted direct to XERO, SC to supply the email address for this.

Please have Nigel REMOVE Jack. Let him know that Jack is not to be copied on any of the communications.

Thanks,

Marcus
